Hi ___NEW_CUSTOMER____!

Just wanted to introduce you to a company I've been working with, the ComeBack App.

They make **Branded Business Apps**, in minutes. You can have your own customized app in Apple and Google App Stores by week's end.

Your app allows you to **directly engage with your customers** with Promotions, Events, Special Offers, in App Purchases, Ordering, Loyalty Programs and more.

They handle publishing your app to Apple's App Store and Google Play. You just tell your customers to download and install the app and away you go!

www.comebackapp.net

The standard app includes:

- iOS and Android dedicated apps
- Push Notifications - to your customers
- Unlimited Loyalty Programs
- In app ordering
- In app store purchases (With geolocation delivery)
- Online Dashboard for complete control of the App features
- QR code generation
- Analytics for offers and downloads
- Plus option of Gift Coupons

1. The app comes with a **100% money back guarantee**
2. It's a tax write off
3. They guarantee within 6 months, if you follow their Best Practices, you will be able to run a single promotion that generates much more than the minimal cost of the app!

This app platform was built by business owners and know well how to implement with your business for guaranteed success.

An app can be produced and be available in the app stores within 5-6 days and costs $495/year for a single business. Multiple location business solutions are customize to suit your needs.

The App and Dashboard run on Amazon Web Services and Google Cloud so scalability is not a problem at all.

Easy to use, very affordable and extremely effective customer engagement! Proven results.

Please see the "My Dashboard" for business owners here, notice all of the Customer Analytics as well as all the Features like SMS Push Notifications, Ordering, Customer Feedback and customizable Loyalty Programs...
http://demo.comebackapp.net

From a 1 location business to global brands that operate in multiple countries, with multiple currencies in multiple languages, ComeBack App can handle it all.

Minimal investment very high return. **Less than a cup of your daily coffee.**

I have attached some screenshots of existing apps but please go to the app stores and try them out for yourself. Install they apps and see what they can do for your business...
